Updated: 2019-02-09**Skills & Personality**

- PHP & MySQL, HTML5 / CSS3 / jQuery, etc
- Numerous industrial programming languages
- x86 Assembly, XSLT & XML
- Linux server (bash, etc)
- Windows domain administration
- Linux domain integration
- High reliability OEM (VMWare)
- Hardware maintenance and repair

I am a 35 year old computer expert, with over 15 years professional working experience in this field, while also engaged constant volunteer work in the same field over the years and was involved in many innovative projects.

I have worked in everything from purely technical roles, such as the main and only software developer of chemical and biological reactor control software, to working with people in DENIA workshops and educating them in the use of tools for webdevelopment. I have learned to rely on myself to get the job done, and I have learned to sometimes rely on others to get the job done faster.

It is difficult to summarize years of experience in different settings into a few bullet-points, but I have always done my work with great dedication, and problems to me were always just challenges to overcome. Whatever I get into I solve eventually, if possible with great proficiency. If the task at hand requires it, I am capable of organizing and working with a team. Meeting my clients' expectations is very important to me and I take great pride in ensuring that my work meets the highest objective quality standards.

Work Experience**Commercial**

2 years, Igor Srdoč s.p.
since 2016 - Technical expert working on contracts, primarily IT support and systems integration

7 years, BIA Separations d.o.o.
since 2011 - IT department head
- Oversight of external contractors
- Operation of all company security equipment
- Design and development of applications to streamline multiple business processes
- Help in eliminating bottlenecks in business processes

8 years, BIA d.o.o.
since 2003 - Repairs for company and client equipment
- IT support
- Software developer for client laboratory equipment automation
- Software developer for company experimental prototypes

Non-profit

9 years, Društvo za trajnostni razvoj Duh Časa
since 2009 - Senior engineer involved in majority of repairs by the group during a period
- Work-process optimization advisor
- Co-author of EU project documentation

4 years, DENIA - Development of European Non-Profit Internet Activity
since - Lecturer
2010 - Developer, working on commercial websites
- Developer, contributing to open-source projects

1 year, in Očistimo slovenijo v enem dnevu
2010 - Member of the technical support crew for email system and website
- Personal technical support and computer repairs for the core team of organizers

4 years, Earth Organisation for Sustainability
since - Author of multiple articles attributed to the organization
2008 - Community manager

Experience with computers / programming

2016 Transferred to Igor Srdoč s.p.
Access to interdisciplinary team that specializes in computers, focusing my creative effort on this field

2011 Transferred to BIA Separations d.o.o. as IT department head
Gained business process experience, helping them automate by creating functional intranet applications

2010 Established web-development organisation DENIA with **Igor Srdoč**
Held lectures in website authoring for numerous startup founders who still remember us.

2008 Also a web-developer on the side
Worked with professional designers to write websites for companies like Biobanka d.o.o. and 12postaja

2003 Employed at BIA d.o.o. as an independent developer
Programming of research biological and chemical reactor - control software, for the Biotechnical faculty, Krka and Lek

2002 International programming collaboration: **ICI-ICSA**; team of 3
A proof of concept peer-to-peer distributed execution system with high encryption; authored everything except encryption

2000 Worked with **Ryan Morris**
Programming team called MesonAI

1996 Mastery of programming language: QuickBASIC
Learned utilization of all the commands in the language

1993 First programming language: Sinclair BASIC
Dazzling programming with computer graphics

1990 First computer: HP 9825A
Learned to type before learning how to write

Formal Education

2000 Technical gymnasium Srednja Agroživilska šola, Ljubljana, Slovenia
Emphasis on Microbiology and Biotechnology, which I obtained a job in, during my education
Degree acquired in 2004

Languages
